# Company Profile

China Hebei Yanhao Pipeline Equipment Co., Ltd. is a professional manufacturer of steel elbow flange pipe fittings. Located in the famous Chinese pipeline equipment base-Yanshan County, Cangzhou City, Hebei Province, China.

The company has 8 advanced pipe fitting production lines and 5 flange production lines. It has a complete set of intermediate frequency elbow hot pusher, reducer hot die press, three-way cold extrusion hydraulic press, forging hammer, vertical lathe, drilling machine and other process forming and machining equipment for the production of elbow flange pipe fittings, including  $\Phi 1020$ mm large diameter. The annual production capacity of medium-frequency hydraulic pushing machine,  $\Phi 1420$ mm large-diameter intermediate-frequency pipe bender,  $\Phi 2438$ mm 4,000-ton large hot mold press is more than 80,000 tons.

The company's main products: flanges, elbows, Bend, reducers, tees, crosses, pipe caps and threads, socket series of pipeline components products. Materials include carbon steel, stainless steel and alloy steel. Implementation standards include ASME, ANSI, AWWA, DIN, JIS and large industry standards, etc. Yanhao Pipeline can provide any design of pipe flange and pipe fitting products to meet your customized needs. Custom pipe flanges and fittings that meet the most stringent designs are not a problem.

At the same time, the company is also equipped with a complete set of advanced physical and chemical testing, non-destructive testing, heat treatment, hydraulic testing and other product quality testing equipment, including direct-reading spectrometers, which provides a reliable guarantee for the production of products. Over the years, it has provided a large number of products and services for petroleum, chemical, shipbuilding, medicine, electric power, papermaking and other industries and won wide acclaim. It has successively become a designated enterprise of China National Chemical Engineering Corporation, a designated enterprise of China Classification Society, a member of the supply network of China Petrochemical Materials and Equipment Corporation, a member of the supply network of China National Petroleum Corporation, and a member of the power station accessories supply network of the State Power Corporation.

The company has always adhered to the corporate policy of "serving customers with loyalty and trustworthiness, and dedicating to the society with brands", with reputation first and integrity management. Respectively won the China Hebei Province Science and Technology Enterprise, Science and Technology Civilization Enterprise, Implementation of the Joint Integrity Convention Reliable Project Quality Integrity Unit, the 6th Consumer Trustworthy Unit of Cangzhou City, Hebei Province, China, and many other honors such as provincial-level contract-abiding credit enterprise.

We will be more sincere and dedicated to the cause of flanges and pipe fittings, and develop together with customers at home and abroad with a hundredfold sincere cooperation, and create brilliance together!

dimensions are in inches

- (1) Light wall thicknesses are identical to stainless steel Schedule 10S in sizes through 12", and to Schedule 10 sizes 14" and larger
- (2) Standard wall thicknesses are identical to stainless steel Schedule 40S in sizes through 10"
- (3) Extra heavy wall thicknesses are identical to stainless steel schedule 80S in sizes through 8"
- (4) Other types, sizes, and thicknesses of flanges can be provided to meet application
- (5) Stocked and manufactured in carbon steel, stainless steel, and variety of other metals and alloys
- (6) Inside pipe diameters are provided on the following page

(1) Regular facing for 150 and 300 lb. steel flanged fittings and flange standards is a 1/16" raised face included in the minimum flange thickness. A 1/16" raised face is also permitted on the 400, 600, 900, 1500, and 2500 lb. flange standards, but it must be added to the minimum flange thickness

(2) Regular facing for 400, 600, 900, 1500, and 2500 lb. flange standards is a 1/4" raised face not included in minimum flange thickness dimensions

(3) Dimensions shown are consistent with specifications predating the 1990's. Alternate face connections are typically supplied to meet older designs. Please specify if your requirements dictate otherwise

## ► Dimensions of Ring—Joint Facings
